### **Lab Task 06: Profile Card with Positioned Elements**

#### **Instruction:**

- 1. Complete the task**
- 2. After completion, push the code in the GitHub repository.**

#### **Scenario:**

You're designing a User Card for a social platform dashboard. Each user card shows the profile photo, bio, and an "Online" badge neatly positioned at the top corner.

#### **Steps:**

1. Create a user card with:
  - Profile photo
  - User name
  - Short bio
2. Set the card container to position: relative.
3. Add a small badge (like "Online" or "New") using another <div> inside the card.
  - Set the badge to position: absolute.
  - Place it in the top-right corner of the card.
4. Style the card with padding, border, and background color.
5. Round the corners and add a shadow-like effect using border and background.
