**Lab Task 02: Multi-section About Page**

**Instruction:**

- 1. Complete the task**
- 2. After completion, push the code in the GitHub repository.**

**Scenario:**

You are designing a colorful About Page for your personal site. Each section highlights a part of your life, separated visually by unique colors and spacing.

**Steps:**

1. Create a webpage named about.html.
2. Divide the page into three main sections:
  - About Me
  - Education
  - Hobbies
3. Use <div> tags for each section and apply unique IDs and class selectors.
4. Apply different background colors for each section.
5. Use internal CSS (inside <style> tag in <head>).
6. Use one inline style for a specific text element (e.g., <p style="color: blue;">).
7. Add a <hr> between each section with custom color, height, and width.
8. Adjust spacing using margin and padding.
